

Nov. 19, 1956

Dear Anni Albers:

Yes, I would be delighted to exchange a metal sculpture for a painting.

There is one which measures 26" high, 18" wide by 11" deep. Another measures 38" high by 21" by 11". Both are somewhat alike in structure

I can send you either one promptly if you tell me which one you rather have. I think the taller is the better one. If ~~it~~ ^{you prefer} it is one similar to the one you saw at the Chicago Institute, then I would have to make ~~it~~ ^{it} and that would require quite sometime

Our best to you and Josef. Harry
